

Compiled Explorer Series

#29 - Aspects

(Unedited Transcript)

Martin 00:00

Hello, my name is Martin Warren at the Monroe Institute I work in the research laboratory as a monitor for many of the Explorer sessions. With this explorer tape, we want to introduce you to a special theme that has come up many times since we ourselves were introduced to it. The subject of this tape is a concept that the entities have given the term: aspects. According to the friends, which is our name for the group energy that is transmitted through explorer IMEC. the consciousness of every individual is overlaid with countless aspects that make up the individual's personality and emotional characteristics. When the consciousness enters physical matter reality, the new individual begins to draw from the pool of aspect energy is already present on the earth plane created by the thought forms of human beings since time began. When the individual exits earth through physical death, the aspects remain behind and are redistributed to the earth energy pool. The frames indicate that aspects are what make our experience of the physical world possible. And we continue to create new aspects through both individual and group thought processes. We first heard about aspects in the 42nd session with IMEC in which we were given a dramatic and enjoyable demonstration, we now joined that session in progress.

IMEC 01:26

As you know, there are different types of manifestation and each of these manifestations are is linked in to a particular energy, all of these energies are in one sense in the pendant of other energies, and, and it would be too difficult at this point to try to go beyond this particular stage. So, we will work in to that phase later. at this particular time, that we would show you that within each energy, as you call a physical entity, that resides that then above parts of all of these energies, and as we explained in the other lesson, these energies have taken the forms that they are being expressed within the energy fields or through a concepts through words and through a concept. So, you preceive these energies and now as a part of personalities as desires, as one, seeking one, certain assays in the physical world, and others seeking other phases and they have become separated in to what you call a good and a bad, creative and a dish. And many, many of the different phases are concepts, that a man has created. And all of these energies are that are one that are part of the coming together to allow the physical creation, oh to allow the total expression of the physical creation, then are a necessary for this function. And all of them must be recognized and understood and in corporated, into the total entity, and understood that in order for the the entity to rise above, one could say them to understand and to rise above and then to understand, to separate again one's self from them and a allow them their expression. And by Is this a process then one will obtain that of

separateness that the consciousness that the separate the consciousness that he man has whispers of that he is aware that exists somewhere of which but he has a difficulty of finding the cause of the many, many voices and of because of the identification with the energies that produce the physical reality, which is not that a consciousness that a man is seeks. So, there then as all of these various energies come together, then they manifest themselves through different types of personalities within the individual. And there are there are certain groups and certain information that has been given in the past on the earth plane, as to how to adapt in to these particular aspects, the individual and these have been found and allowed to express themselves, however, then they, because again of the understanding within man's mind, he again attributes of these energies as they speak in a certain ways which are not in entirely the truth of it about a way to express it and these are I have been called a guide and placed as separate entities, now, the is they are a separate from the individual. However, they are not entities in the sense that you are entities, they are not that a consciousness that we speak of, they are fragments of the earth, energies, they are fragments of the energies that come together to produce the physical world, and they continue and in their continuance is the, how the physical world continues to manifest itself. So, one must first then learn to the difference of the between, there was one called the gods and the teachers and you see, this does not take anything a way, it is an energy, it is expressing itself, and it has a reality of its own, but it is not, in a sense, a reality of the reality that man is a reality for they express themselves through the physical manifestation of man and they play themselves through man. But the true essence of what a man is, that is that spark of separateness that we speak of, is a different type of consciousness. than when a man is allowing these aspects to manifest themselves through him. And him, we do not wish to say that this man should not allow this man is the expression as these energies express themselves through man. As he then can be, become familiar with them and become in agreement with him, as they were to say, understand them and allow them to hit the expression, then is when a man can use these energies for his creative purposes. Again, you see, it is the thing of that is a the creative energies which all of them are creative energies, they are a separate they is for energy, and they are not energies and will not ever be energies in the consciousness that man is able to acquire. And so it man allows these energies to flow and to express and create on the earth plane. He then can become a witness to this creation, as he ceases to identify with these energies in their inter play with each other and he ceases then to identify with them and allows them their plays in he literally witnesses the creation of this particular reality, the reality of the earth energies, the reality of the ever changing physical world, but appearing to be solid, all of these experiences that man, they're witnesses. So, we this is a very, very interesting and a very deep subject. And if we find that we stray from the source of our session today, for we wished to a show you allow you to express experience some aspects of these energies that we speak of, and we have a the agreement, we have worked with the this process, and we have the agreement of all concerned. So we wish now to give you a demonstration. And perhaps later in other sessions, we will be able to reach the larger of sources as it were. Now we just wish to show you some

of the aspect, some of the energies that reside within the physical manifestations of certain of all individuals and take on the personalities that make up the entities and how they then express themselves at a different time. So please, bear with us for one moment.

IMEC - Supergirl 12:46

Hello, everybody. Hello. Hello, everybody. My name is Supergirl. And I am a little girl that resides within Maria. Wow, I've been with her for a long, long time. I'd like for you to meet my other little sister named Michelle Rose. Michelle Rose come over here and say hello..

IMEC - Shayla Rose 13:10

Hello. everybody, my name is Shayla rose. And, well, I just like to say hello to everybody that I'm a little bit shy. You know, I really do like everybody, but I just sometimes I don't know what to say to people. I'll grab away yellow rose. You know what? I don't think that guy was very smart and growing as aspect. Do you feel like an aspect? Well, I guess maybe we really are an aspect.. Anyway, I'd like to say hello to everybody. And also I'd like to let you know that I am in charge here. I am in charge. And I will basically they told me I could be in charge. So I just want to let you know that what we're going to do is we're going to let you meet some of us that has been working with Marie for a long,mlong time. And well. It's not very easy. Let me tell you one thing you know. She is something else, but we'd love her anyway. Okay, all right. I want. Are you there R.W.?

Martin 14:32

Yes. Hello. Glad to know you.

IMEC - Supergirl 14:34

You're not R.W. You're not R.W. I'm calling R.W., You're Martin. I know who you are. You're Marton. But anyway, I want to talk I want you Martin to meet R.W., all right? Okay, R.W. You want to come on and say hello to everybody?

IMEC - R.W. 14:58

I am R.W. and I am energy that has been the protector of total energy heal. It has been quite an ordeal to keep all of this energy together to be in a constant constant awareness to act as protector and to maintain the energies within this entity for I have not always I had the cooperation of the other energies that reside here. So, they to briefly state what my full position is, I act as as the protector and there are many times when the decisions that I make are not in a total agreement with the other entities.

IMEC - Supergirl 16:33

Okay. Alright. That's enough out of you right now, you know, we're not supposed to do a show here, we're only supposed to just say hello and kind of introduce yourself a little bit. Sister Teresa, are you there? You want to come in to say hello.

IMEC - Teresa 16:53

Yes, thank you. Thank you, thank you very much. I am sister Teresa. And I I am within this energy all those things that represent the love, the joy that goes with the feeling that one has for the love of God and all of that which reaches out the children into the second diety, for they call out to us constantly. They call out for help. And it is only through the love and the glory of God that we can reach these individuals that we can reach out and help and touch and bring to them the joy, the joy of knowing God inside and to release from them the anguish that goes with the lack of material substance that they have. We seek to feed and to clothe and to bring this spiritual nourishment to all of those on the earth plane who are lacking who do not have those things that they need to maintain themselves on the physical plane.

IMEC - Supergirl 19:00

Okay, thank you sister. Was she really get them to? She Well anyway, see now who would like to be next. Oh, well. All right, if you really want to, I would like for you to meet Dr. Philosophy. He's the one that that that tries to power you know how we're supposed to do and what we're supposed to do. And he's a pretty smart guy, you know, he goes and he gets into all over you further energy but he tries to figure out which one is the best way for us to go Well I tell you, he's led us through a lot of different things. You know, we've been through all of the different systems and we're still in searching but anyway. I would you like to come on and say hello, doctor?

IMEC - Dr. Philosophy 19:59

It is indeed a great pleasure to be here. We have searched through in many of the known philosophies on the earth plane. And there is a great a great truth in me of the earth of philosophy as we seek to explore, and to come to the right path that would lead us to the total understanding, and it's coming in to the oneness with the Creator, that we all see. We have come to in many, many truths and we have come to many, many false and empty roads. And we have at many times reached a point where it would be easier to stop and to give up, but we know that it's somewhere within the realm of the energies of the thoughts of the philosophies of the words of the concepts that there is an answer. We will seek this answer. As long as there is a breath as long as there is a consciousness we will never cease to search for the truth. We know that some where that some how it will be revealed and we will not we will not release this thought we will maintain the thought and the knowledge that it is there and we will acquire it, we will attain it. Thank you.

Martin 22:48

Thank you.

IMEC - Supergirl 22:49

Okay, alright. Thank you, doctor. Now, let's see, who else would like to come out and say hello. A little fun. Hi, you want to come over and say hello, everybody?

IMEC 23:05

Well, I don't really know what to say. I'm just I'm just, oh, gee, I don't really know what to say. I just kind of hang around a little bit, but I don't really know what to say. I'll just say goodbye.

IMEC - Supergirl 23:34

Okay, all right. All right, kids. She's really hot. You want to try and work with her for a long time trying to get her to, you know, be a little more expressive. She does all kinds with the other side. When it comes time to face up now. She just won't do it. Oh, well, anyway, it's okay. Oh, golly, we got to go to where we don't only get a chance to say too much anymore, but, okay. All right. Well, anyway, we got to go now. It's really been neat talking to all of you. And you know, even if I am only an aspect, you know, gee, I still like to work for a while just express, you know, hello to everybody. Every once in a while, you know, we get a chance each of us you know, can we each one gets, get our chance to at different times we are allowed to express ourselves. And we have a whole bunch of us more in here that we didn't even scratch the surface. Just wanted you to know there. But anyway. You know, it's really the base. We'll get to all you guys. Well, anyway, I don't know if they're gonna let us talk and get footpaths or not. They let us talk. They took over. You know, they they're the big boys. They got They do more than what we do. So, they, they said that if we would work with CMR and and she would work with them that we could all get together and you know, kind of get together and they can agree with you and we all really increase knowledge and make it like a whole lot better. So anyway, talk to you later got go now, bye bye.

Martin 25:45

After IMEC aspects left, the friends had additional comments which you will hear on the other side of the tape
